

**BOYS & GIRLS CLUBS
OF NORTHWEST GEORGIA**

The Boys & Girls Clubs of Northwest Georgia has been a premier youth development agency since the early 1950's. Throughout the years, the organization has flourished and provided opportunities for thousands of youth to grow personally and academically in a safe and structured environment. Based on the physical, emotional, cultural and social needs and interests of school-aged boys and girls, the Club offers diversified year-round activities during after school hours, school holidays and summer vacations in several core areas:

Character and Leadership development programs, with particular emphasis on servant leadership, community service and juvenile delinquency prevention.

Education and Career development programs that provide tutoring and homework assistance, college and career exploration, and a special emphasis in the STEM subject areas. The Boys & Girls Clubs of Northwest Georgia maintains a 100% high school graduation rate among its active members and is the only Boys & Girls Club organization in the state of Georgia that operates an advanced robotics program.

Health and Life Skills development programs that promote good nutrition, teach the importance of physical fitness, and the value of teamwork. These programs also center on making good life choices and defining and maintaining good relationships, particularly among peers.

Working alongside our staff, volunteers play an integral role in the overall Boys & Girls Club experience. Therefore, we welcome adult volunteers who wish to share their time and/or talents.

To best align your goals and interests with our Boys & Girls Club programs and activities, please complete the following questions:
